

Player Protection Form Fall 2024 Season

There may be up to (2) protected players per team but cannot protect more than (1) pitcher and/or (1) catcher. Head Coach's daughter/granddaughter/relative will be automatically added to his/her team roster and does not require a protection form. However, if the Head Coach's daughter/granddaughter/relative is a known or experienced pitcher, then she will take the protected pitcher spot but still leaving (2) protected player spots open. It is the coach's responsibility to provide the league with a signed form for each protected player at the beginning of the draft.
